

# CETCO® SUSPEND-IT™

## Suspension Enhancer

### DESCRIPTION

SUSPEND-IT is an easy mixing biopolymer additive used to control drilling fluid rheology.

### RECOMMENDED USE

Designed to enhance gel strength of the drilling fluid for improved suspension and transporting of drill cuttings, gravel, and cobble on long bores. SUSPEND-IT will perform effectively in fresh or saltwater.

### CHARACTERISTICS

- Easily dispersed in drilling fluids
- Enhances gel strength with little increase of viscosity
- Performs well in fresh and saltwater
- Transports larger cuttings, gravel and cobble easily on long bores
- Improves PV/YP
- Strengthens filter cake and improves bore stability

### MIXING AND APPLICATION

Pour slowly through a hopper at maximum shear to avoid lumping and to minimize waste. Add 0.5 to 1 pound per 100 gallons (0.25 to 0.5 kg per 380 liters) of SUSPEND-IT to existing drilling fluid. Dosage scoop included is equivalent to 1/2 lb.

### PACKAGING

35 lb (11.3 kg) pail, 36 per pallet. All pallets are plastic-wrapped.
