

BAROID CORE-LUBE™

Core Barrel Lubricant

Description CORE-LUBE™ natural, linseed-based soft soap is used as a core barrel lubricant on diamond core drills.

Applications/Functions

The use of CORE-LUBE lubricant can promote the following:

- Easy sliding of the core into the inner tube
- Lubrication of the core lifter
- Minimized wear on the inner tube
- Formulation of a non-polluting water-based solution for cleaning inner tube components and rig equipment

Advantages

- Helps improve core recovery
- Helps extend length of core run in broken ground
- Can lengthen useable life of downhole wireline components

Recommended Treatment

As aid in core recovery

A handful or saturated swab of CORE-LUBE lubricant may be smeared inside the bottom of the inner tube before it is inserted into the drill rods. Also, a liberal amount may be applied to the core lifter parts.

As a cleaning solution for drill rig components

Mix one quart of CORE-LUBE lubricant with 50 gallons of water or 5 liters of CORE-LUBE lubricant per m³ of water.

Packaging

CORE-LUBE core barrel lubricant is packaged in 25-lb (11.4 kg) resealable plastic pails with wire bail handles.

Availability

CORE-LUBE core barrel lubricant can be purchased through any Baroid Industrial Drilling Products Retailer. To locate the Baroid IDP retailer nearest you contact the Customer Service Department in Houston or your area IDP Sales Representative.
